More Features

Device Security
Real-time protection for 1 PC or Mac® against ransomware, viruses, spyware, phishing and other online threats.

2 GB Cloud Backup[1,2]
Store important files and documents as a preventive measure against data loss due to hard drive failures, stolen devices and even ransomware.

Password Manager[3]
Tools to easily generate, store, and manage your passwords, credit card information and other credentials online – more securely.

Smart Firewall for PC or Firewall for Mac
Monitors communications between your computer and other computers and helps block unauthorised traffic.

Online Threat Protection
Advanced security to help protect your private and financial information when you go online.

How To Install

1. Visit https://www.norton.com/setup on a web browser.

2. Create an account, and if you don't have one it's easy, just use your email address.

3. Enter the 25-digit product key.*

4. Click Next and follow the on-screen instructions.

System Requirements

- Norton™ AntiVirus Plus covers a single PC or Mac.

- Norton™ AntiVirus Plus supports Windows™ PC and Mac®. Not all features are available on all platforms. For detailed system requirements information: Norton.com/sysreq

- Cloud Backup is presently not supported on Mac OS or Windows in S mode.
